More info about the product!

RTK Handheld Surveyor Kit SKU is: AS-PROKIT-HANDSURVEY-L1L2-03

Description

With the RTK Handheld Surveyor Kit you will have everything you need to start your surveying tasks with RTK and centimeter level accuracy.

For Android users, use your preferred app and connect to the receiver via USB or Bluetooth.

For iOS users, currently only connection over BLE is possible, and only SW Maps app is supported.

You will only need to configure your NTRIP credentials and you are ready to go!

Good to know:

- You can power and connect to the GNSS receiver with only one USB OTG cable
- You can use Bluetooth and BLE with the same device (compatible with Android and iOS devices)
- Fits any smartphone from 5.3cm to 9.3cm with or without case
- Smarpthone is not included
- This product is recommended for geocatching applications
